Hospital clients

- We can also be in business with hospitals as well.
- Our app will also help hospital find more patients and reach out to more transgenders too.

**WHAT ARE
THE PAIN POINTS
OF
TARGET
CUSTOMERS?**

PAIN POINTS

According to interviewees...

- Hard to find information
- Wrong information
- Side-effect
- Waste money buying the wrong medicine
- Lack of trans-friendly pharmacies

MAIN PROBLEMS

TURNY

1

Hard to find information

- Lacking good information sources
- Causing most of the problems that the interviewees mentioned

THEY NEED A PLATFORM TO GET A TRUSTABLE INFORMATION!

MAIN PROBLEMS

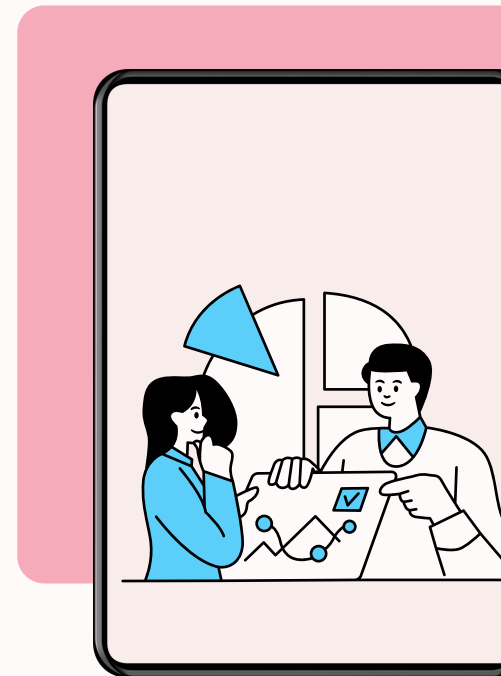

TURNY

2

Lack of trans-friendly pharmacies

- Experienced pharmacies are mostly in the Bangkok
- Many pharmacies are having only a few kinds of hormones medicines

**THEY NEED A PROFESSIONAL PHARMACY THAT CAN
VISIT AT ANY TIME!**

3

Side-effects from using wrong medicine

Male-to-female Transgender	Female-to-male Transgender
Cardiovascular Disease	Deep vein thrombosis (DVT)
Breast Cancer	Obstructive sleep apnea
Abnormal liver or kidney function	Uncontrolled dyslipidemia

SOLUTIONS

Make an **application** that provides trustable information and sells approved hormone medicines, regardless of any circumstances.

SWOT

S (Strengths)	W (Weaknesses)	O (Opportunities)	T (Threats)
• Multi service apps (Pharmacies, online professional consultations, medicine taking reminder) • User friendly, open 24/7, order anytime anywhere.) • User feel more comfortable • Partnered hospitals and clinics. 	• Weak security system. • Lack of reputation • More features and function added • More partnered hospital and clinics added.	• Many buyers buys hormones medicine with no knowledge about the medicine. • Many people feel more comfortable with online shopping • People are more into technology. • Marketing on social media	• Wrong consultation from a doctor • Service could go down from time to time • If our app does well - increase in competitors. 

THANK YOU!
